Tim Farrell

Senior Product Manager

Boston, MA · 856-904-6017 · tfarrell01@gmail.com · linkedin · portfolio

SUMMARY

Product builder who specializes in data/ AI/ ML products for bio/ health/ medicine. Strategic lead for large-scale data/ AI/ ML platforms and products (eg billions of records, 100s of models), driving development from concept to commercial impact.

RELEVANT EXPERIENCE

OM1 — Boston, MA

Senior Product Manager — 2024-Present

- Lead 0-to-1 development of clinical AI product, taking a proprietary foundation model from internal capability to externally consumable product with multiple surfaces (e.g. API).
- Drive product strategy across payer, provider and life sciences markets, transitioning revenue streams from services to products, enabling deals worth $400k+ ACV.

Product Manager — 2022-2024

- Led SaaS and agentic platform to improve discoverability/ delivery for real-world data products (300M+ patient journeys)—driving 50% YoY revenue growth, enabling deals worth $1.75M+ TCV and reducing costs by 80%.
- Oversaw ML/ AI enrichments (extractions and imputations) for real-world data platform, which increased observations by 4x. Built sales materials that drove significant commercial impact (e.g. deals worth $500k+ ACV).

Day Zero Diagnostics (acquired by bioMérieux) — Boston, MA

Product Manager — 2021-2022

- Led product for company's first commercial offering (outbreak detection for hospitals).
- Drove CLIA certification process, to enable service to be sold as a clinical lab test.
- Scaled commercial traction from ~1 deal/quarter to 1–2 deals/month.

Manager, Bioinformatics Engineering — 2020-2021
Bioinformatics Engineer — 2019-2020

- Developed data platform to support ML model training and development. Grew data 35% YoY through partnerships and public data, building one of the largest datasets of its kind (50k+ genotype-phenotype samples).

Broad Institute of MIT and Harvard — Cambridge, MA

Assoc. Computational Biologist — 2017-2019

- Built cloud-based genomics data system supporting research and analytic workflows.
- Analyzed phase IV vaccine trial data and improved accuracy via error-correction research.

US Army Reserve

Operations Officer — 2012-2021

- Led operations for 100+ personnel; deployed overseas (2016) and for COVID-19 (2020).

SKILLS

Product	0-to-1 Product development/ discovery, Product strategy, Roadmapping
Data & AI	Data platforms, ML lifecycle, GenAI / LLMs/ AI agents, Model evaluations
Healthcare / Domain	Real world data (EHR, claims, etc), Clinical terminologies (eg ICD, RxNorm, LOINC, etc), FHIR / SMART on FHIR, Genomics, Clinical trials

TOOLS

Prototyping/ Design	Cursor, Claude, Lovable, Figma, Python, JavaScript/ React
AI/ LLM	OpenAI and Anthropic APIs, AWS Bedrock, MCP, SageMaker
Data/ Analytics	SQL, Snowflake, Databricks, BigQuery, Postgres, Airflow, Hex, Google Analytics
Cloud/ Infrastructure	AWS, GCP, Docker, Terraform, Netlify

EDUCATION

M.S., Bioinformatics – Boston University — 2014-2016
Activities: West End House Tutor (Chemistry and Math)

B.S., Biomedical Engineering – Rutgers University — 2008-2012
Activities: Army ROTC (Top 10%)

PROFESSIONAL DEVELOPMENT

AI Product Management – Duke University (Coursera) — 2026

Certified Product Owner – Product HQ — 2022
