Reference Table Query ✓

Validate Filter ✓

Update Cohort ✓

The cohort has been updated to find patients who both:

- Have been prescribed a GLP-1 agonist (including dual GIP/GLP-1 receptor agonists)
- Have an observation for Body Mass Index (BMI)

GLP-1 Medication Codes Selected (2 total):

- boc001770 - GLP-1 agonists for Diabetes
- boc011609 - GIP/GLP-1 receptor agonists for Diabetes

Inclusion Criteria:

Have been prescribed GLP-1 agonists for Diabetes OR GIP/GLP-1 receptor agonists for Diabetes OR Liraglutide, weight loss OR Semaglutide, weight loss OR Tirzepatide, weight loss

#### Medication

GLP-1 agonists for Diabetes  
GIP/GLP-1 receptor agonists for Diabetes  
... and 3 more

At Least 1 Encounter(s)

AND

Have observations of Body Mass Index (BMI) [0-100 kg/m2]

#### Observation

Body Mass Index (BMI) [0-100 kg/m2]

At Least 1 Encounter(s)

## 2/2 Cohort assistant

Ask in plain language, e.g. 'patients on GLP-1s with a BMI observation', and the assistant picks the codes, builds the inclusion criteria and updates the live patient count.
